

PRELIMINARY REPORT

OF THE

SIXTEENTH ANNUAL ALBERTA SALARY AND WAGE RATE SURVEY

1 AUGUST 1972

ALBERTA - CALGARY - EDMONTON

Alberta Bureau of Statistics
Department of Industry and Commerce
Edmonton - Alberta
September 8, 1972

CA2 ALID 20
W20
1972p

Digitized by the Internet Archive
in 2025 with funding from
Legislative Assembly of Alberta - Alberta Legislature Library

In response to requests from a number of users, the Alberta Bureau of Statistics has compiled, for general distribution, a preliminary report of the Alberta Salary and Wage Rate Survey - 1972.

The report comprises Alberta, Calgary and Edmonton summary pay rates in 186 occupations. It must be emphasized that these are preliminary data only, based on 1,100 questionnaire returns in the survey. This represents about 80% of the anticipated firm coverage and employee rate coverage for the final survey report. All preliminary statistics which meet the publication criteria in the survey are included in this report; and since this is a report of preliminary statistics, all published rates are subject to revision, with some rates being affected more than others as a result of the inclusion of outstanding data.

In the Alberta set of statistics for each position the term "range" refers to the end points of the middle eighty per cent of the reported rates in each position. The totals for "number of firms" and "number of employees" in each position for Alberta indicate the sample size within the eighty per cent range, and form the base statistics for Edmonton and Calgary data. Only rates within a range are considered in calculating the "median rate" and "weighted average" in each set of statistics. Survey positions are grouped into the fifteen occupational categories on the right to serve as a guide and outline for this report.

Government of Alberta data for non-institutional staff in Edmonton and Calgary have been reduced to approximately twenty per cent of reported employment in each survey position.

Final survey results will be compiled and tabulated for publication after outstanding questionnaires are received. The final report will show the revised summary salaries and wage rates, and a breakdown of these data by size and type of firm. In addition to information for Calgary and Edmonton, regional pay rates will be given for Lethbridge, Medicine Hat, Grande Prairie, and Red Deer. The final report will also include a listing of the firms supplying information, a job description of each survey position, and a detailed description of methodology.
